

SilverPhone

Technology you can use

SilverPhone 

EASY5

Stores your 5 most important contact numbers

Each number is stored in one of the five large, brightly lit buttons. You can also call the emergency services in addition to your 5 stored numbers.

Your stored numbers can be easily changed

If you want to change the numbers – simple, just remove the SIM card and insert into another mobile and edit your stored numbers.

Simple 'one touch' to make and receive calls

Using the Easy5 couldn't be simpler. Just press the button that holds your chosen number to be dialled. You'll be connected in seconds!

Inbuilt Speaker Phone

The inbuilt loudspeaker enables you to use the Easy5 hands free at the touch of a button.
